OttnoAI

Capability Statement

OttnoAI.com

OttnoAI leverages advanced artificial intelligence and machine learning technologies to revolutionize enterprise search and information retrieval processes. Our solutions combine the power of large language models, natural language processing, and custom-designed ontologies to extract critical insights from vast organizational data sets. By transforming unstructured and siloed information into actionable knowledge, we enable organizations to uncover hidden patterns, streamline data access, and improve decision-making. Through the use of AI and powerful analytics, OttnoAI allows organizations to act on real-time data for better outcomes and mission success.

Core Competencies

Secure Search & Discovery:

- AI solutions across all classification domains (UNCLASS to TS/SCI) using advanced NLP and large language models to enhance search and uncover critical insights

Zero-Trust AI Security:

- Adheres to IC security standards with rigorous validation, testing, monitoring, and human oversight, ensuring secure access to mission-critical knowledge

Multi-Domain Knowledge Intelligence:

- Converts siloed data into structured knowledge with IC-compliant ontologies and machine learning, enabling informed decision-making across security boundaries

Mission Workflow Optimization:

- Leverages generative AI and data analytics to streamline operations and enhance mission effectiveness in classified environments

Desktop & Web	Mobile & Tablet	Any Browser
Windows, macOS, Linux, Chrome	iOS, Android, iPad	Chrome, Safari, Firefox, Edge

Primary NAICS & PSC Codes

519290 - Web Search Portals and All Other Information Services

D300 - Information Technology and Telecommunications

DA10 - It and Telecom - Business Application/Application Development Software as a Service

Company Snapshot

CAGE: 0NUQ1 **UEI:** GYHVYTKJSF81
Gov. Business POC: Michael Ortiz
Phone: (305) 798-2102
E-Mail: mike.ortiz@ottnoai.com
Address: 8024 Gilpin Peak Dr, Colorado Springs, CO 80924
Work Area: Nationwide
Socio Economic:

- *Disadvantaged Business Enterprise*

Differentiators

- **Advanced Information Retrieval:** PhD-level expertise in optimizing search and data analysis for enhanced performance and decision-making.
- **Web Services Architecture:** Proven ability in designing and implementing secure, scalable web services architectures.
- **CompTIA Certification:** Industry-leading standards in IT security and infrastructure, ensuring robust and reliable solutions.
- **DOT Certified DBE:** Department of Transportation certified Disadvantaged Business Enterprise (DBE), ensuring compliance and diverse solutions.
- **AI-Driven Data Analytics:** Advanced capabilities in utilizing AI and machine learning to unlock actionable insights from large datasets.
- **Generative AI Solutions:** Skilled in deploying generative AI to streamline complex workflows and enhance mission outcomes.
