Patient
Recommended workflow

Enrollment

-Enroll and educate patient on Rehab Boost app and individualized HEP

-Goal and expectation setting

Engagement

-Rehab Boost app detects and logs patient activity with timestamped motion detection and feedback

Treatment

-Physical Therapist provides remote treatment by:

-Reviewing patient activity
-Updating HEP
-Sending messages
-Calling patient

Reimbursement

-Each month, review patient and provider activity within Rehab Boost app

-Bill for patients who meet activity thresholds for appropriate Remote Therapeutic Monitoring CPT codes

Clinic
Recommended workflow

Enrollment

-Request credential instructions
(Facility & Admins)

-Create credentials

Onboarding

-Facility receives Rehab Boost Welcome Kit

-Onsite Hardcopy Delivery (How-To Documentation) and access to PDF

-Training Sessions

Roll Out

-Go live with Clinic #1

-Gradually increase number of clinic and therapist enrollment
