Overview of CPF

June 2025

CHICAGO PACIFIC FOUNDERS

Chicago Pacific Founders (CPF) is a mid-sized health sector focused private equity firm

Our mission is to accelerate health innovation

CPF

1 Specialty Care

- Buy-and-Build
- Recession resistant sectors within healthcare that are experiencing strong market tailwinds and have a high degree of fragmentation

2 Value-Based Care

- Invest in markets that are ripe for care model innovation and value-based pricing
- **One of the most prolific investors in the space**

3 Technology & AI

- High-powered analytics, consulting, and technology enabled services
- Enhances business impact and delivers improved patient outcomes

4 Healthcare Real Estate

- Buy undermanaged communities and medical properties
- Optimize care coordination to improve outcomes and resident experience
- Supports rapid de novo and ASC growth

Uniquely positioned to partner with innovative platforms to provide superior healthcare outcomes

Focus for this RFI response

CPF Portfolio – Assets in Data, Technology & AI

- Healthcare management and IT consulting firm providing EHR implementation, IT system optimization, strategic advisory, revenue cycle, enterprise resource planning, AI and data science, and strategy and operations consulting services to a wide range of health system, hospital, large provider group, and payer clients across the country
- ~1,100 employed consultants and contractors on staff which have served 450 health care clients since the Company's inception seventeen years ago
- Consistently rated as Best in KLAS for the past seventeen years and has 2x more total KLAS awards than its nearest competitor

---

- Developer of a healthcare data platform intended to connect patients, providers, and life sciences companies
- Offers a connected ecosystem of healthcare data and collaboration, enabling life sciences organizations to engage in collaborative data and research partnerships efficiently, compliantly, and at scale and offer patient-centered and evidence-based care

---

- Technology enabled services platform, focused on serving middle market healthcare payers and risk bearing provider groups with next-generation AI and operational solutions
- Product offering encompasses a range of programs, including risk adjustment, quality and HEDIS support, claims adjudication, member engagement, and other core administration functions
- Allymar leverages proprietary data and best-in-class artificial intelligence to enable customers to scale and compete efficiently with large national players

---

Technology Partner
(Not portfolio company)

- XSELL Technologies is a leader in conversational AI for contact center agent optimization, specifically focused on transforming patient interactions in the healthcare industry.
- The company has a HITRUST certified open technology orchestration platform to develop an extensible and reusable AI foundation built for scale, high accuracy and low latency. This foundation contains both an agentic AI platform for patient and provider engagement utilizing a real-time eXpert Language Model (XLM) built specifically for healthcare and contains the ability for automated and accurate data labeling for fine tuning models at scale.

Appendix

CPF Portfolio – Value-Based Care Assets (1 of 2)

MyCare Medical

- Full-risk primary-care group (44 staff clinics, 56 affiliates) caring for ~36k Medicare Advantage / value-based lives in FL & TX
- Customers are MA plans and seniors who receive capitated, analytics-supported care coordination

P3 Health Partners — People. Passion. Purpose.

- At-risk primary-care management platform partnering with MA plans in AZ, NV, OR, FL & CA with 116k full risk lives

WellBe Senior Medical — better care for better living

- Home-based, geriatrician-led team who works with existing PCPs and specialists across the entire continuum of care, assuming full risk for ~156k high-acuity Medicare lives nationwide
- Customers: MA plans needing cost-effective, whole-person care for polychronic seniors at home

ATRIO Health Plans

- Provider-aligned Medicare Advantage insurer with 39k members in OR & NV
- Sells MA plans jointly with health-system partners focused on high-quality, locally branded products

NovumHealth West

- Capitated behavioral-health IPA-wrap around model that manages a network of non-owned facilities and providers, managing 1.2M commercial, exchange, MA and Medicaid lives through care-coordination network
- Payors outsource behavioral-health risk for cost control and access expansion

NovumHealth East

- Sister platform to Novum West, now managing ~67k Medicaid lives in FL under IPA-wrap model
- Medicaid MCOs contract for population-wide behavioral-health management and utilization savings

CPF Portfolio – Value-Based Care Assets (2 of 2)

DUO HEALTH

- Full-risk interdisciplinary care model for stage 3 through ESRD CKD patients; 4.3k lives under management in AZ & FL
- Customers are MA/C-SNP plans seeking lower total cost and STAR improvements

GOLD KIDNEY HEALTH PLAN

- C-SNP (chronic special needs plan) focused on provider group partnerships in Arizona and Florida with 4k members
- Addresses the unmet need in the market for a health plan that offers enhanced benefits tailored to the CKD population and adheres to nephrologists' care plan (no prior authorization)

Sage Health

- Concierge primary care provider group focused on underserved, Medicare eligible seniors
- Employs a de novo clinic expansion model and takes full capitated risk on Medicare Advantage and dual-eligible Medicare and Medicaid patients, providing them with a comprehensive care team including a primary care doctor and nutritionist
- Limits its providers' patient panels to ensure high quality care and optimal health outcomes for patients as well as attractive financial outcomes for its payer partners

motion

- Multi-disciplinary and end-to-end musculoskeletal care provider group focused on Medicare eligible seniors, employing orthopedic surgeons, sports medicine physicians, nurses, physiatrists, physical therapists, and care navigators to provide coordinated, comprehensive, and conservative care
- Takes capitated risk on musculoskeletal conditions for Medicare patients, aiming to deliver both high-quality care for its patients and attractive financial outcomes for its primary care / payer partners

Anderson Family Care

- Provider of value-based end-of-life ("EOL") services
- Goal of providing higher-quality, patient-centric EOL care at a reduced cost to the healthcare system by engaging with Risk-Bearing Entities ("RBE")
